Professional CV in Preparation

Dr. Eng. Mitiku Bedru Gochefo

Hydraulic Engineer | Irrigation Specialist | Water Resources Leader & Senior Government Adviser

Thank you for your request and for your interest in the professional profile of Dr. Eng. Mitiku Bedru Gochefo.

We are pleased to confirm that his downloadable professional CV is being carefully prepared and verified for publication within the HARE Irrigation Project Digital Archive. The final document will present his technical, managerial, academic and public-sector career in a polished international professional format.

Dr. Eng. Mitiku is a highly accomplished senior hydraulic and irrigation engineer with more than three decades of progressive experience in irrigation development, hydraulic engineering, water supply and sanitation, integrated water-resources management, engineering consultancy, institutional capacity development and senior government advisory work. His career has advanced from field design and university teaching to regional water-sector leadership and national-level engagement in international water and energy relations.

BSc Irrigation Engineering	MSc Hydraulic Engineering - IHE Delft	PhD Leadership	RPP Practicing Professional Hydraulic Engineer
--------------------------------------	---	--------------------------	--

STATUS	Professional PDF CV - in final preparation and verification
PROFILE	A distinguished water-resources professional whose experience combines technical engineering, leadership and institutional development. He currently serves as Adviser to the Minister on foreign and international relations concerning water and energy, after senior roles in irrigation development, regional water-resources institutions, engineering consultancy, WASH, university education and climate-resilient water-investment programme development.

While the downloadable PDF is being finalized

His full online professional CV and HARE introduction remain available for review.
